This chapter provides a step by step guide for Students to login and access information through the eSD® Student Portal. The eSchoolData Student Portal will make it easy for students to view current academic information by allowing for immediate access to grades, assignments, school calendar, schedule, attendance and much more.
All currently enrolled students will be provided with an eSD Student Portal account. Please refer to the school district’s website for an existing Student Portal Link. If your district has not listed the link on their website, the district will provide you with the necessary information to access the Student Portal web page. Your school will provide you with a Username and default Password. Enter your Username and Password, and then click Log in. At anytime if you have any questions regarding your eSD Student Portal account please see your district’s portal account administrator.
