For a healthy and successful school year, it's important for your child to have their annual well visit before classes begin. Annual well visits are free.

During the annual well visit, your child's healthcare provider will:

Give your child a complete physical exam:

This is a great time to talk about your child's growth and development, and to ask any questions you may have.

Check your child's vision and hearing:

It's important for your child to see and hear the teachers and their lessons clearly.

Make sure your child's vaccines are up to date:

Your child's provider can make sure your child has the vaccines they need, when they need them.

Has your child seen a dentist this year?

Regular dental checkups help children stay healthy.
