

****NOTICE: THESE FIELDS ARE CURRENTLY NOT IN USE BY ANY STUDENTS OR STAFF AND WILL NOT BE USED UNTIL FURTHER NOTICE****

**Follow-up notification to persons in parental relation and staff pursuant to
Section 409-H of the State Education Law***

Dear Parent, Guardian, and School Staff:

New York State Education Law Section 409-H, effective July 1, 2001, requires all public and nonpublic elementary and secondary schools to provide written notification to all persons in parental relation, faculty, and staff regarding the potential use of pesticides periodically throughout the school year. The following pesticide applications took place at the Elementary School on April 26, 2019:

Date of Application	Location of Application	Product Used
04/26/2019	80 N Main St, Mayfield	13-0-4 w/0.375% Evade
	Athletic Fields	EPA Number 34704-776

As a reminder, the Mayfield Central School District is required to maintain a list of persons in parental relation, faculty, and staff who wish to receive a written notification 48 hours prior to the application of certain pesticides. The following pesticide applications are not subject to prior notification requirements:

- a school remains unoccupied for a continuous 72-hours following an application;
- anti-microbial products;
- nonvolatile rodenticides in tamper resistant bait stations in areas inaccessible to children;
- nonvolatile insecticidal baits in tamper resistant bait stations in areas inaccessible to children;
- silica gels and other nonvolatile ready-to-use pastes, foams, or gels in areas inaccessible to children;
- boric acid and disodium octaborate tetrahydrate;
- the application of EPA designated biopesticides;
- the application of EPA designated exempt materials under 40CFR152.25;
- the use of aerosol products with a directed spray in containers of 18 fluid ounces or less when used to protect individuals from an imminent threat from stinging and biting insects including venomous spiders, bees, wasps, and hornets.

In the event of an emergency application necessary to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48-hour prior notification list.

If you have not yet registered to receive a written notification 48 hours prior to the application of pesticides that are scheduled to occur in your school, please complete the form below and return it to the **Kathy Dougherty, Interim Superintendent** or **George Harrington, School Pesticide Representative** at:

27 School Street, Mayfield, NY 12117
p: 518-661-8222
