

Hi, my name is Daniel Sardelli. I am running for school board member. I have lived here since summer of 1970. I attended 8th grade and attended Erie Community College in 82-84, graduated with an Associated Degree in Ophthalmic dispensing, Lic Optician since 1987.

I bought the house I grew up in, in 1984 and lived there since. As a Lic Optician it was important to listen to the needs of my patients to provide them with the best fit and vision needs to see their best and look their best.

I have raised 3 daughters, all went to Mayfield Schools and graduated. I now have 2 of my 5 grandchildren in Mayfield School District.

I like to have an open line to the residents of the school district to voice their concerns they may have about any school situations.

I have heard the main reason for new residents coming to the Mayfield School district is the quality of Education we provide here. I live to keep our school system better ever than that is. I also like to keep our school budgets in check to keep our school taxes lower than surrounding school districts.

I appreciate your vote to be on the next school board in 2023 – 2028 to serve this growing community.
