

My name is Tara Caraco. I am a lifelong Mayfield resident and graduate of Mayfield Central School. After receiving my degree in education I spent thirty-one years as a teacher at Mayfield Elementary School where I had the privilege of working with many students and families from our community. During my time at Mayfield I coached both soccer and softball, as well as volunteer for many programs and extra-curricular activities. I am currently working with the Instructional Services Department at HFM BOCES where I have gained perspective on the academics and instruction going on in our entire region as well the challenges of providing educational needs within the limits of a budget. I feel my experience will lend to my ability to be a productive member of the board where I will work to fairly represent not only my six grandchildren who will be a part of our school system, but every single child in our extended Mayfield family.
